

2009 NEOSA | Best of Tech Awards

On May 19, 2009, FIT Technologies received the 2009 Best of Tech Award for **BEST IT SERVICES COMPANY** from the Northeast Ohio Software Association (NEOSA). This award category recognizes the company that has demonstrated exceptional expertise in and commitment to supporting clients' information technology needs.

"We are very proud to be recognized for our work. The expertise and professionalism our technical team possesses is amazing, and the commitment they have to our clients is unmatched. Our network operations team, our engineers, our service technicians—they are the reason we received this award. Whether they are designing a new network for a fortune 500 company or verifying a data backup for a small non-profit, the service they give our customers is the same—outstanding," said FIT Technologies' Vice President of Information Technology Fred Franks.

Thom Liggett, Co-Founder Micki Tubbs, Co-Founder Michelle Tomallo, VP Technology, Fred Franks

NEOSA was established in 1998 to promote the advancement of the technology community and IT industry in Northeast Ohio. NEOSA created the Best of Tech Awards to recognize top performing companies and leaders in technology. Nearly 70 applications in nine different categories were submitted from companies of all sizes, from small start ups to market leaders for the NEOSA 2009 Best of Tech Awards.

2009 NEOSA | Best of Tech Awards

NEOSA is proud to recognize outstanding companies and impressive tech entrepreneurs in this region by presenting the annual *Best of Tech Awards*. Recognizing great companies and leaders helps us promote this region as an awesome place to live and work, where cool companies are doing great things.
